RE: I support the public's right to know if factories and plants in my community are good corporate citizens or law-breakers.

Dear Ms. Kane:

It is my understanding that the EPA has created an online database of compliance records for more than 800,000 regulated facilities nationwide, including those permitted to dispose of pollutants in rivers and streams. I believe it is important to continue to make this information available to the public via the internet.

I submit this as part of your request for public comment.

Sincerely,

Conrad Claborne
